## SENATE PUTS UP A SMOKESCREEN OF TALK

### ACTION IN NAVAL OIL LEASING PROBE HELD UP FOR TIME

VOTES TO PASS WALSH RESOLUTION TO CANCEL LEASES ARE AVAILABLE

BUT SENATE CANNOT GET IT. SELF PUSHED TO THE POINT TO CAST A VOTE

#### Congress Today By United Press

Senate: Continues debate on oil leasing scandal. Propaganda committee continues hearings. House: Naval affairs committee discusses Muscle Shoals. Republican members of the ways and means committee consider tax rates.

Washington, Jan. 31.—Action in the naval oil leasing scandal today was being held up by an apparently insurmountable barrier of senate talk.

Although the votes to pass the Walsh resolution ordering court action to cancel the Doheny and Sinclair leases are available, the senate seemed unable to get to the point of voting.

Mr. Coolidge is a little annoyed at the senate's delay. He has appointed counsel which the senate insists on the right to approve his selection before they can actually go to work. Indications are that it may be several days before the resolution authorizing employment of these as special counsel and providing funds to pay them and their steps will emerge from the welter of talk and political wrangling in congress.

Meantime three impartial medical experts of Washington—selected by the senate investigating committee—undertook today to determine just how sick Albert B. Fall is.

The physicians will report tomorrow whether they believe Fall able to testify or whether it would be advisable for the committee to go to his bedside.

The house naval affairs committee today continued to inquire into the naval policy of exchanging oil drawn from the reserves for storage and the using of money derived from the oil to build docks, pumping stations and other equipment at Pearl Harbor.

Silas H. Strawn, Chicago republican, member of the special counsel appointed by the president was studying today the evidence disclosed by the senate committee. He will confer with Thomas W. Gregory, the democratic counsel, as soon as Gregory gets here from Texas.

The senate went on debate hoping to adopt the Walsh resolution before night.

#### CABINET NEVER MADE DECISION ON LEASES

Washington, Jan. 31.—The legality or propriety of the naval oil leases were never brought before the cabinet for decision, Secretary of State Hughes declared today.

In replying to an inquiry he has made the following statement:

"The questions of the legality or propriety of the oil leases now under discussion in congress were never brought before the cabinet for its decision. My opinion under these questions was never sought or expressed either in or out of the cabinet. If the oil leases were ever referred to in cabinet meetings and I do not recall that they were, it was certainly only by way of general reference and without requesting any responsible action which of course I should not have been willing to take without examination of papers and statutes.

"Having plenty of work in the department of state I had no occasion to consider the questions of law and fact involved and I have not been called upon to take any responsibility in the matter."

## Democrats Offer Plan in Tax Reduction Today

### \* ATTEMPT TO KILL 25 MEMBERS OF JAPANESE DIET WAS FRUSTRATED \*

(By United Press)  
Tokio, Jan. 31.—An attempt on the lives of 25 members of the Japanese diet and leaders of the political activities of the empire was frustrated today. Obstructions of heavy timbers and stones had been piled on the track ahead of a train on which they were returning to Tokio from a political meeting at Osaka. The engineer of the train was able to see the danger in time to apply the brakes and reduce the speed. The train struck the obstruction, however, and was derailed but none was injured.

### De Wolf Hopper's 5th Wife Granted Divorce

New York, Jan. 31.—The fifth matrimonial venture of De Wolf Hopper, musical comedy star, ended in failure when Mrs. Edna F. Hopper, known on the stage as Hedda Hopper, was granted an interlocutory decree of divorce and custody of her 7-year-old son, William, by Supreme Court Justice Van Sicken in Queens county. She was granted 30 per cent of her former husband's weekly salary as alimony, with the stipulation that the amount at no time be smaller than \$50. Decision was based on a report from Referee Seymour Fuller.

### PRINCE UNCERTAIN IF HE IS ENGAGED

#### DANISH KING'S COUSIN REACHES U. S., BUT ELEANOR GREEN FAILS TO MEET HIM

New York, Jan. 31.—Prince Viggo of Denmark, cousin of King Christian, whose engagement to Miss Eleanor Green of New York was reported in Copenhagen court circles and denied last month by Miss Green's father, doesn't know whether he is engaged or not, he said on his arrival off the Majestic. The prince is on his way to Ottawa, where he will attend the wedding Feb. 11 of his brother, Prince Eric, and Miss Lois Frances Booth.

A tall, slender young fellow, the prince seemed extremely nervous. He anxiously scanned the crowd gathered on the pier. Miss Green was not there to greet him.

Prince Viggo said he didn't desire to discuss his reported engagement to Miss Green, who is a daughter of Dr. James O. Green and a granddaughter of the late Peter Cooper. He evaded direct reply to a question if he had renounced his rights of succession, as would be necessary if he married a commoner.

"I never thought of being a king," he said.

#### VENICE POLICE FIND REAL BALLROOM LIZARD

(By United Press)  
Venice, Calif., Jan. 31.—Local officers recently captured a very thoroughly developed specimen of the ballroom lizard. A police officer noticed a gleam beneath the coat-tail of a dancer and discovered a silver-tipped flask when he took him in charge. When officers searched him they found two powder puffs, a lip stick, a biscuit of rouge, two combs and an eyebrow pencil. He was turned loose on bail with regrets. The police really wanted to destroy "it."

#### HOG RECEIPTS FOR JANUARY BREAK RECORDS

(By United Press)  
South St. Paul, Jan. 31.—All records for hog receipts in one month were broken at the South St. Paul yards during January when 483,000 hogs were received. In December 430,000 hogs were received, which also was a record month.

### LIEUT. GRIFFIS IS FREED FROM A GERMAN PRISON

HAD BEEN SERVING SENTENCE FOR ATTEMPTED KIDNAPING OF BERGDOLL

AMERICAN NEWSPAPERS IN ARGUMENT OVER CREDIT FOR ASSISTING TO FREE HIM

(By United Press)  
Berlin, Jan. 31.—Freed from the Mossbach jail here, where he was serving sentence for the attempted kidnaping of Grover Cleveland Bergdoll, Lieutenant Corliss Hooen Griffis, of Ohio, has gone to Hamburg whence he plans to sail for New York today.

Perley Sperber and Prince Gagarin, who had participated with Griffis in the attempted deportation of the American draft dodger over the border to France, were to be freed today.

The pardoning of Griffis who had been sentenced to serve 21 months on a technical charge of assault and battery, was carried out in a mysterious manner.

Throughout Wednesday officials were either silent or insisted the American lieutenant had not been pardoned. This forenoon the announcement was made that Griffis had been freed through the Baden government. It was explained that the Central relief committee (General Allen's) was chiefly instrumental in speeding up the release.

It was announced also that Griffis had "crossed the border" last evening for an unknown destination although what border was referred to was not made clear.

Griffis did not go to Paris but to Hamburg.

It was stated that numerous applications for the pardon had been received from various newspapers in the United States.

Why the original order of the pardon movement was ditched in favor of another similar enterprise is not known although it was suggested that Foreign Minister Stressemann himself intervened. There had become a war between two American newspaper factions as to which was to get the credit for Griffis' release.

Griffis went to Hamburg accompanied by Baden officials from the minister of justice thru whom pardon was granted. He was expected to sail on the Albert Ballin.

#### LITTLE DUSTY SHOP, WHERE FORTUNE CAME

(By United Press)  
St. Louis, Mo., Jan. 31.—Dust is fast collecting in the narrow window of a little store down on Biddle street.

Residents of the ghetto district passing by stare at the rudely-pencilled sign on the door: "Closed on account of death."

Jefferson Wall, the storekeeper, is dead. Behind him he left the dusty little shop and a fortune of \$600,000.

At the age of 12, Wall started business here with a peddler's pack. That was 55 years ago. He bought a small shop, made money, and invested it in tenements, apartment-houses, and other real estate.

They say of Wall down at Thirtieth and Biddle streets that he never raised his rents a dollar, and that he sold goods at cost from his shop during the last 15 years. He never gave to charity, holding it made people lazy, until his later years. He worked from 8 to 6 every day, and transacted all his dealings from his dusty little shop. Few knew of his large fortune.

Wall cared little for surroundings. His dress was careless. His goods were packed indiscriminately into bins. But Wall knew where they were and prices are the important things down on Biddle street.

### \* WOODROW WILSON IS VERY ILL; DOCTORS CALLED YESTERDAY \*

(By United Press)  
Washington, Jan. 31.—Woodrow Wilson is ill and under the care of a physician who was called at noon yesterday to attend the former president. The physician is Dr. Sterling Ruffin and will see Mr. Wilson again today.

"I do not consider Mr. Wilson's condition as serious," said Dr. Ruffin this morning. "I do not feel at liberty to state the nature of his illness."

General Cary T. Grayson, Mr. Wilson's personal physician, is due to reach Washington this morning from North Carolina, where he has been hunting.

Dr. Ruffin, who was summoned by Mrs. Wilson, was one of the doctors who attended Mr. Wilson when he was stricken while president by the affliction which has left him an invalid.

#### FRIENDS OF STATE FORESTER COX HIM AT MEETING

(By United Press)  
St. Paul, Jan. 31.—Friends of State Forester Cox swarmed the meeting of the forestry board today and expressed themselves.

No action toward removal of the forester was taken, however, and only routine business was transacted by the board.

One appointment was made—that of Mark Buckman, Little Falls, as secretary. He fills the vacancy which has existed for two years since General C. C. Andrews died.

The board apparently was about to adjourn without even mention of the reported plan to oust Forester Cox when Otto Diercks, one of the board members, suggested that there were about 200 visitors at the meeting and the board find out what they wished.

Grant T. Spier of St. Paul arose as spokesman and explained that most of those in attendance at least wished to express their confidence in Forester Cox and to say it would be a calamity to have him removed. He said the visitors felt such a step might be taken.

He made a plea for retention of Cox and for the conservation of the forests. He also lauded the reforestation program outlined by Cox. Many other speakers also representing the American Legion, the American Game and Fish Protective association and virtually every Twin City civic club and women's organizations.

A telegram received from H. A. Webber, Duluth, today, said that he would not consider the forestry post from which it was reported Cox would be ousted at the salary offered. He said the forester now received \$4,000 a year and he understood the board intended to cut his salary to \$1,500 a year.

#### UNDER CLOUD AND HANGS HIMSELF

(By United Press)  
Knoxville, Tenn., Jan. 31.—Columbus G. Wayland, until recently commissioner of accounts and finances of the city of Knoxville, hanged himself at his home here today.

Wayland was reported in financial difficulties and was defending with other members of the former city commission a suit brought by the taxpayers to recover public money alleged to have been misspent.

#### HORRIBLE MURDER OF DAUGHTER LAID AT DOOR OF FATHER

(By United Press)  
Bridgeton, N. J., Jan. 31.—Charged with the murder of his daughter, Emma Dickson, 15-year-old high school student, whose mutilated body was found in a clump of bushes near Port Elizabeth on September 22, 1923, Thomas Dickson is in the county jail here today.

### MINNESOTA BEAUTY SPOT OF ALL WORLD, DECLARES LECTURER

NORTHERN LAKES AND FORESTS OF PINE UNEXCELLED, SAYS J. H. ESCHMAN

MADEIRA ISLANDS, JEWELS OF ATLANTIC, PLACED SECOND TO "10,000 LAKES"

Minneapolis, Jan. 31.—From Greenland's icy Mountains to India's coral strands, J. H. Eschman has knocked about the world. It has been his business. He is a lecturer on travel.

For years he has been traveling about the globe. He knows Brazil, Ceylon, Manchuria, Rumania, Switzerland, New Zealand, Algiers, Rhodesia as one knows Nicotlet avenue—because he's been there.

So, he was asked in Minneapolis what are the most beautiful places in the world?

He made a list of ten. And lo, the name of Northern Minnesota led all the rest.

Here they are, as he wrote them: First, Northern Minnesota with her thousands of sky blue lakes and pine forests, most beautiful country in all the world.

Second, the Madeira Islands, exquisite jewels of verdant valley and mountain blending with a sunny sea. Third, Cashmere province, India, the land of Lalla Rookh, a paradise of birds.

Fourth, Java, where life is easiest for man.

Fifth, Southwestern Australia, the provinces of New South Wales and Victoria, inspiring land of rolling farms, orchards and forests.

Sixth, Sandwich island, where bloom the red acacia in its native home.

Seventh, Japan, a flower garden with cherry blossoms and naval officers as the main motif.

Eighth, Yellowstone National park.

Ninth, Alpine Switzerland.

Tenth, Valley of the Zambezi with beautiful Victoria Falls.

The Canadian Rockies, the Colorado river canyon, Tibet near Mt. Everest, New Zealand and mountainous Norway are given honorable mention.

Mr. Eschman will leave for New York this week, where he will board the British steamship Samaria, on which he is to be official lecturer for a tourist party.

#### Wheat Field "Trifle" Revolutionizes Industry

Minneapolis, Jan. 31.—Careful business men say there are no such things as trifles. Looking at the flour industry of this country one is forced to agree. The wealth of Minneapolis, the wheat production of our northwest and Canadian west are built largely upon a single kernel of wheat. In the spring of 1842 David Fife of Canada sowed some wheat that supposedly came from Russia. It proved to be winter wheat and, therefore, did not mature. There was one kernel, however, of a different variety which sent up three stalks that did ripen. The three heads were preserved and from this seed has come our hard spring wheat, a variety hitherto unknown but now raised all over the northwest and known as "Fife." For years it was the ugly duckling of wheat until the invention of the roller and purifier revolutionized the milling industry. When the first roller mill was built in Minneapolis about 1878 that city had a flour output of about 900,000 barrels a year. Now the Minneapolis zone can put out from 25,000,000 to 30,000,000 barrels of flour a year, a great deal of which goes into export, and Canada has raised wheat equivalent to 100,000,000 barrels more. All because David Fife noticed a trifle in his wheat.

In recent years, however, Fife wheat has been gradually replaced by Marquis wheat as the leading variety in Minnesota.

### \* WIFE AND A HEART SPECIALIST CALLED TO SAVE VENIZELOS \*

(By United Press)  
Athens, Jan. 31.—The wife of Eleutherios Venizelos and a heart specialist were hurriedly summoned from Paris today by telegram.

Official announcement was made that Venizelos had definitely resigned the premiership. It was said he hoped to be sufficiently recovered to return to Paris by mid-February.

Canataris is considered the most likely successor to the premiership.

On Tuesday Venizelos suffered his second severe heart attack since his return to Greece.

#### 4 Montana Bankers Are Under Indictment

(By United Press)  
Helena, Mont., Jan. 31.—Four of the leading bankers are under indictment here today following the failure of the Bankers Corporation of Helena.

Those indicted are George W. Castell, president of the corporation; L. Q. Skelton, state bank examiner and director of the corporation; George L. Ramsey, former president, and O. A. Tweed, cashier. They are charged with accepting deposits for a defunct bank.

### POLISH DIPLOMAT RAPS CAPITAL WETS

#### RECALLED SOKOLOWSKI GOES HOME DISGUSTED WITH OFFICIAL DRINKERS IN SOCIETY

Washington, Jan. 31.—Washington's lively social set today was gasping from the sting of the second bitter indictment hurled at it in 24 hours.

First, W. P. G. Harding, former head of the federal reserve board, blamed the suicide of his beautiful daughter Margaret to the nerve shattering social pace and the cigaret smoking in Washington.

On the heels of this, Dr. V. Sokolowski, retiring member of the Polish legation staff, flung over his shoulder as he departed from Washington this barbed farewell:

"I go back to my country with a disgust for social drinking that I cannot put into words."

Representative Upshaw, who had been leading a fight against drinking in Washington circles, saw Dr. Sokolowski off at the station and commended him as a "high toned gentleman" and gave him a letter declaring that he was convinced Sokolowski was simply the "victim of that custom of official and social looseness on the liquor question."

It was in responding to this letter that Sokolowski expressed his disgust and declared he was going home a total abstainer.

"I have seen so many high officials in Washington drink the liquor that their government has outlawed, and secure liquor from each other—what could I do if I wished to be congenial and a good entertainer if I did not fall into their customs?" he asked.

#### HIBBING MAN CONVICTED OF TAX EVASION

(By United Press)  
Duluth, Jan. 31.—Louis Maletto, Hibbing, forgot to include the profits from a \$35,000 sale of iron ore land on his income tax last year and was convicted in federal court of evading the tax.

Maletto sold the land to the Oliver Mining company and said he had no intention of beating the income tax and did not knowingly omit the item from his report.

Judge W. A. Cant heard the case, the first of its kind in this district, and said Maletto would receive a lighter sentence if he paid the amount now.

### GARNER SAID IT WILL AFFECT SOME 2 MILLION PEOPLE

EXEMPTION OF \$2,000 FOR SINGLE PERSONS AND \$3,000 FOR FAMILY HEADS

NOMINAL TAX OF 2 PER CENT ON INCOMES UNDER \$5,000, 4 PER CENT ABOVE SAME

Washington, Jan. 31.—The republican proposal to give all taxpayers a deduction of 25 per cent in the taxes they will pay this year on last year's income was met in the house today by democratic plans to grant larger reductions.

Representative Garner, Texas, representing the democrats on the ways and means committee, offered a resolution proposing to apply the reduction in his plan to 1923 incomes.

He demanded immediate consideration of the measure, but Chairman Green objected and it was referred to a committee.

The democratic plan which Garner said would affect 2,000,000 taxpayers, proposes

1. Exemption of \$2,000 for single persons and \$3,000 for heads of families.
2. A nominal tax of two per cent on incomes under \$5,000 and four per cent on incomes from \$5,000 to \$8,000.
3. Surtaxes are graduated from six per cent on \$8,000 to 44 per cent on \$92,000.
4. A 33 1-3 per cent reduction on earned incomes which would affect farmers and small business men.

### HALF MILLION DOLLAR BREACH OF PROMISE SUIT

(By United Press)  
Atlanta, Ga., Jan. 31.—While "waiting at the church" for Asa G. Candler, 73-year-old multimillionaire, Mrs. Oneida Dehouche received a letter breaking the engagement and charging her with improper conduct, Albert Howell, Jr., attorney for the New Orleans beauty, charged today.

The accusations were made by Howell as he resumed reading of endearing letters written by Candler to Mrs. Dehouche in the trial of the \$500,000 breach of promise suit against the wealthy soft drink manufacturer.

The impassioned Romeo, Candler, who wrote as often as three times a day to his "sweetheart" during the engagement period, shattered the romance with a brief note received by Mrs. Dehouche on her wedding day, saying he had been informed while she was the sponsor for the re-union she had received male visitors in her hotel room.

This letter, which reached the New Orleans society leader September 22, 1922, was one of seven missives introduced by the plaintiff today to tell the story of the blighted betrothal.

Nearly a score of impassioned letters, telling of Candler's undying love and his rosy dreams of spending his remaining years in a "love nest," were presented at the opening session of the suit in federal district court.

#### MODERN DIANA DITCHES HORSE; USES TRACTOR

Paris, Jan. 31.—The Duchess d'Uzes is the ultra-modern Diana the Huntress. Instead of a spirited horse, she rides a tractor when hunting deer on her Bonnelles estate. In her youth the duchess led the chase after deer and fox. With old age she could no longer manage a galloping jumper. So she bought a specially equipped tractor, like the baby tanks of war time. Attired in crimson coat, boots, spurs and other traditional garb, the duchess follows the hounds up hill and down dale with keen enthusiasm. A veteran of the French tank corps pilots the hunting tractor.

NORTHERN LAKES AND FORESTS OF PINE UNEXCELLED, SAYS J. H. ESCHMAN

#### MADEIRA ISLANDS, JEWELS OF ATLANTIC, PLACED SECOND TO "10,000 LAKES"

Minneapolis, Jan. 31.—From Greenland's icy mountains to India's coral strands, J. H. Eschman has knocked about the world. It has been his business. He is a lecturer on travel.

For years he has been traveling about the globe. He knows Brazil, Ceylon, Manchuria, Rumania, Switzerland, New Zealand, Algiers, Rhodesia as one knows Nicotlet avenue—because he's been there.

So, he was asked in Minneapolis what are the most beautiful places in the world?

He made a list of ten. And lo, the name of Northern Minnesota led all the rest.

Here they are, as he wrote them: First, Northern Minnesota with her thousands of sky blue lakes and pine forests, most beautiful country in all the world.

Second, the Madeira Islands, exquisite jewels of verdant valley and mountain blending with a sunny sea. Third, Cashmere province, India, the land of Lalla Rookh, a paradise of birds.

Fourth, Java, where life is easiest for man.

Fifth, Southwestern Australia, the provinces of New South Wales and Victoria, inspiring land of rolling farms, orchards and forests.

Sixth, Sandwich island, where bloom the red acacia in its native home.

Seventh, Japan, a flower garden with cherry blossoms and naval officers as the main motif.

Eighth, Yellowstone National park.

Ninth, Alpine Switzerland.

Tenth, Valley of the Zambesi with beautiful Victoria Falls. The Canadian Rockies, the Colorado river canyon, Thibet near Mt. Everest, New Zealand and mountainous Norway are given honorable mention.

Mr. Eschman will leave for New York this week, where he will board the British steamship Samaria, on which he is to be official lecturer for a tourist party.

#### Wheat Field "Trifle" Revolutionizes Industry

Minneapolis, Jan. 31.—Careful business men say there are no such things as trifles. Looking at the flour industry of this country one is forced to agree. The wealth of Minneapolis, the wheat production of our northwest and Canadian west are built largely upon a single kernel of wheat. In the spring of 1842 David Fife of Canada sowed some wheat that supposedly came from Russia. It proved to be winter wheat and, therefore, did not mature. There was one kernel, however, of a different variety which sent up three stalks that did ripen. The three heads were preserved and from this seed has come our hard spring wheat, a variety hitherto unknown but now raised all over the northwest and known as "Fife." For years it was the ugly duckling of wheat until the invention of the roller and purifier revolutionized the milling industry. When the first roller mill was built in Minneapolis about 1878 that city had a flour output of about 900,000 barrels a year. Now the Minneapolis zone can put out from 25,000,000 to 30,000,000 barrels of flour a year, a great deal of which goes into export, and Canada has raised wheat equivalent to 100,000,000 barrels more. All because David Fife noticed a trifle in his wheat.

In recent years, however, Fife wheat has been gradually replaced by Marquis wheat as the leading variety in Minnesota.

### WIFE AND A HEART SPECIALIST CALLED TO SAVE VENIZELOS

(By United Press) Athens, Jan. 31.—The wife of Eleutherios Venizelos and a heart specialist were hurriedly summoned from Paris today by telegram.

Official announcement was made that Venizelos had definitely resigned the premiership. It was said he hoped to be sufficiently recovered to return to Paris by mid-February.

Canantaris is considered the most likely successor to the premiership.

On Tuesday Venizelos suffered his second severe heart attack since his return to Greece.

#### 4 Montana Bankers Are Under Indictment

(By United Press) Helena, Mont., Jan. 31.—Four of the leading bankers are under indictment here today following the failure of the Bankers Corporation of Helena.

Those indicted are George W. Castelli, president of the corporation; L. Q. Skelton, state bank examiner and director of the corporation; George L. Ramsey, former president; and O. A. Tweed, cashier. They are charged with accepting deposits for a defunct bank.

### POLISH DIPLOMAT RAPS CAPITAL WETS

#### RECALLED SOKOLOWSKI GOES HOME DISGUSTED WITH OFFICIAL DRINKERS IN SOCIETY

Washington, Jan. 31.—Washington's lively social set today was gasping from the sting of the second bitter indictment hurled at it in 24 hours.

First, W. P. G. Harding, former head of the federal reserve board, blamed the suicide of his beautiful daughter Margaret to the nerve shattering social pace and the cigaret smoking in Washington.

On the heels of this, Dr. V. Sokolowski, retiring member of the Polish legation staff, flung over his shoulder as he departed from Washington this barbed farewell:

"I go back to my country with a disgust for social drinking that I cannot put into words."

Representative Upshaw, who had been leading a fight against drinking in Washington circles, saw Dr. Sokolowski off at the station and commended him as a "high toned gentleman" and gave him a letter declaring that he was convinced Sokolowski was simply the "victim of that custom of official and social looseness on the liquor question."

It was in responding to this letter that Sokolowski expressed his disgust and declared he was going home to a total abstinence.

"I have seen so many high officials in Washington drink the liquor that their government has outlawed, and secure liquor from each other—what could I do if I wished to be congenial and a good entertainer if I did not fall into their customs?" he asked.

#### HIBBING MAN CONVICTED OF TAX EVASION

(By United Press) Duluth, Jan. 31.—Louis Maletto, Hibbing, forgot to include the profits from a \$35,000 sale of iron ore land on his income tax last year and was convicted in federal court of evading the tax.

Maletto sold the land to the Oliver Mining company and said he had no intention of beating the income tax and did not knowingly omit the item from his report.

Judge W. A. Cant heard the case, the first of its kind in this district, and said Maletto would receive a lighter sentence if he paid the amount now.

### GARNER SAID IT WILL AFFECT SOME 2 MILLION PEOPLE

EXEMPTION OF \$2,000 FOR SINGLE PERSONS AND \$3,000 FOR FAMILY HEADS

NOMINAL TAX OF 2 PER CENT ON INCOMES UNDER \$5,000, 4 PER CENT ABOVE SAME

Washington, Jan. 31.—The republican proposal to give all taxpayers a deduction of 25 per cent in the taxes they will pay this year on last year's income was met in the house today by democratic plans to grant larger reductions.

Representative Garner, Texas, representing the democrats on the ways and means committee, offered a resolution proposing to apply the reduction in his plan to 1923 incomes.

He demanded immediate consideration of the measure, but Chairman Green objected and it was referred to a committee.

The democratic plan which Garner said would affect 2,000,000 taxpayers, proposes

1. Exemption of \$2,000 for single persons and \$3,000 for heads of families.
2. A nominal tax of two per cent on incomes under \$5,000 and four per cent on incomes from \$5,000 to \$8,000.
3. Surtaxes are graduated from six per cent on \$8,000 to 44 per cent on \$92,000.
4. A 33 1-3 per cent reduction on earned incomes which would affect farmers and small business men.

### HALF MILLION DOLLAR BREACH OF PROMISE SUIT

(By United Press) Atlanta, Ga., Jan. 31.—While "waiting at the church" for Asa G. Candler, 73-year-old multimillionaire, Mrs. Oneida Debouchel received a letter breaking the engagement and charging her with improper conduct, Albert Howell, Jr., attorney for the New Orleans beauty, charged today.

The accusations were made by Howell as he resumed reading of endearing letters written by Candler to Mrs. Debouchel in the trial of the \$500,000 breach of promise suit against the wealthy soft drink manufacturer.

The impassioned Romeo, Candler, who wrote as often as three times a day to his "sweetest" during the engagement period, shattered the romance with a brief note received by Mrs. Debouchel on her wedding day, saying he had been informed while she was the sponsor for the re-union she had received male visitors in her hotel room.

This letter, which reached the New Orleans society leader September 22, 1922, was one of seven missives introduced by the plaintiff today to tell the story of the blighted betrothal.

Nearly a score of impassioned letters, telling of Candler's undying love and his rosy dreams of spending his remaining years in a "love nest," were presented at the opening session of the suit in federal district court.

#### MODERN DIANA DITCHES HORSE; USES TRACTOR

Paris, Jan. 31.—The Duchess d'Uzes is the ultra-modern Diana the Huntress. Instead of a spirited horse, she rides a tractor when hunting deer on her Bonnelles estate. In her youth the duchess led the chase after deer and fox. With old age she could no longer manage a galloping jumper. So she bought a specially equipped tractor, like the baby tanks of war time. Attired in crimson coat, boots, spurs and other traditional garb, the duchess follows the hounds up hill and down dale with keen enthusiasm. A veteran of the French tank corps pilots the hunting tractor.

## Why You Should Build Your Home Now

Consider these reasons carefully. Each one is based on the future prosperity and happiness of your family.

- 1st. You want a real home and you need it to give yourself and family the comforts and conveniences that will enable you to do your best work.
- 2nd. It is unwise to postpone home building for possible lower building costs. Remember that lower costs if they should come, would probably find you less able to build than you are now.
- 3rd. Your home should be built before any of the big luxuries like a car are purchased, otherwise the home is likely never to be built. Building the home first makes it easier to buy and enjoy such luxuries. Let us work with you on this important 1924 job.

## Why You Should Build Your Home Now

Consider these reasons carefully. Each one is based on the future prosperity and happiness of your family.

- 1st. You want a real home and you need it to give yourself and family the comforts and conveniences that will enable you to do your best work.
- 2nd. It is unwise to postpone home building for possible lower building costs. Remember that lower costs if they should come, would probably find you less able to build than you are now.
- 3rd. Your home should be built before any of the big luxuries like a car are purchased, otherwise the home is likely never to be built. Building the home first makes it easier to buy and enjoy such luxuries. Let us work with you on this important 1924 job.

ACCEPTS PULPIT 1ST CONGREGATIONAL

Rev. N. P. Olmsted, of Mattoon, Ill., Is Expected to Arrive in City Friday

PREACHED HERE CHRISTMAS

Home Papers Speak Very Favorably of the New Clergyman

Rev. N. P. Olmsted, of Mattoon, Illinois, has accepted the pastorate of the First Congregational church of Brainerd, and is expected to arrive in the city Friday, and to fill the pulpit on next Sunday morning. His household effects have already arrived.

Rev. Olmsted preached before the local congregation the Sunday before Christmas, and made such a very favorable impression that a call was immediately extended to him.

He is a former Minnesota man, holding a pastorate first in St. Paul, then going to the Highland Park Congregational church in Detroit, Michigan. From the latter charge he was called to Mattoon in November, 1921.

In this community he superintended the rather extensive repairs

and improvements to the church building. The interior was redecorated and renovated, and a new furnace installed, in all costing upwards of \$2,000.

Rev. Olmsted is said to be very much interested and very active in community affairs. He held membership in the Association of Commerce of Mattoon, and was a leader in the movement for better homes for the city.

His family consists of his wife and a small son. They will occupy the Congregational parsonage on Juniper street.

The Mattoon newspaper has the following to say in regard to Rev. Olmsted's removal to Brainerd:

Rev. N. P. Olmsted tendered his resignation to his congregation at the First Congregational church last Sunday, to take effect at once, and will go to Brainerd, Minn., to take the pastorate of a church there.

Many regrets were expressed yesterday when it was learned he is to leave the city, because he has been active in everything that was for the betterment of Mattoon during his pastorate here. He was president of the Ministerial association and a member of the Association of Commerce.

Since his pastorate here, which commenced in November, 1921 he has won many friends in the city, and his church has undergone great improvement, and much progress has

been made by that body under his pastorate.

Farewell Dinner

The Mattoon Ministerial Association gave a farewell dinner at the Buckler-Moore cafeteria today noon in honor of Rev. N. P. Olmsted, one of their number, who retires Sunday night from the pastorate of the First Congregational church and leaves for his new charge at Brainerd, Minn.

In addition to his leaving the congregation Rev. Olmsted resigns the presidency of the Ministerial Association and leaves vacant a leading position in the community religious activities, his friends note. Mr. Olmsted will preach his farewell sermon in the First Congregational church next Sunday morning and will leave that night for Brainerd.

EMERGENCY ESSENTIALS FOR THE MOTORIST

Washington, D. C. Jan. 31.—Emergency essentials which every motorist should carry in order to avoid inconvenient or dangerous delays on the road, are described in a statement issued today by M. O. Eldridge, of Washington, executive chairman of the American Automobile Association.

"With the new year many drivers are thinking of their cars and of the reconditioning necessary to put them

in first class running order for the spring," says Mr. Eldridge. "In this connection special attention should be given to the making up of a kit for emergency use while on the road.

The carrying of the few essentials listed here will avoid inconvenient delays and sometimes serious accidents. It is surprising how many motorists take the road while lacking equipment which may readily become more important to them than a supply of gasoline or a spare tire.

"The following should be in the car of every motorist at all times, in addition to the regular tool kit equipment.

"1. A pair of pliers. These will be found very useful in opening vacuum tanks, tightening bolts and in making adjustments to the motor.

"2. A pocket flashlight with extra battery cells. For making all kinds of repairs and adjustments after dark a good flashlight is invaluable. It is also useful in ascertaining the amount of gasoline in the tank, the reading of road signs, and working on tires, etc.

"3. A section of towing rope. Expensive tows may often be avoided if a light, compact cable be at hand when the motor dies or heavy mud is encountered. Passing motorists will often help if a tow rope is available.

"4. A spark plug socket wrench. Many drivers carry extra plugs but

no good wrench to remove the damaged plug and insert the spare.

"5. A set of tire chains. The dangers of slippery roads and heavy mud will be reduced to a minimum if chains are applied when needed.

"6. A tire pump. With the aid of a good pump much tire trouble and the ruining of tubes by driving them flat may be avoided.

"7. A tire gauge. Maintaining the right air pressure at all times will go far to prolong the life of tires.

"8. Some kind of folding water bucket for refilling the radiator.

"This list might be extended indefinitely, but the motorist who carries these essentials whenever he starts out in his car will find he has made provision for the majority of hazards encountered while driving."

## BOK PLAN SENATE QUIZ

THE senate quiz of the Bok peace plan tied up in a knot when Miss Esther Lape, in charge of the policy committee of the Bok peace award plan, refused to answer questions. News reports say she balked at the senate investigation of propaganda charges by refusing to answer questions and thus forced an adjournment of the committee.

The average observer thinks this is wrong on the part of Miss Lape. She is in charge of publicity and by refusing to answer she gains only an eight line mention in the news columns. Had she offered any testimony every word would have been featured and she could easily have gained a column in the public prints.

Some people think it is presumptuous on the part of the senate to concern itself with the investigation of the Bok plan. Others think that if the plan and its publicity is being taken under consideration the senate is as good at investigation as any body, in fact congress is gaining a reputation for quizzes and investigations in all kinds of matters which sometimes lead nowhere at the finish.

## AMERICA AT CHAMONIX, FRANCE

AMERICA, represented at the Olympic games in Chamonix, France, is contending with superhuman difficulties. Coupled with a sea voyage which gives no chance for exercise of the right kind and which is very hard on athletes not used to such voyages, the athletes arrive at the contest center with little chance to get acclimated or to train.

In spite of this the Yankee hockey teams are showing fine class. An American girl won second in fancy skating. A terrific hockey game will be the clash between the present American champions and the Canadians.

The American ski team headed by Mayor George E. Leach of Minneapolis has arrived. The ski men are in the same boat as many of the other athletes, having little or no practice before the official contests.

## THE HOMING INSTINCT

THE homing instinct is strong in birds, as every one knows, but no one had an idea it extended to tomtcats too. An almost unbelievable story comes from Calgary, Alta., Canada, where the William MacLeod family had a cat named "Snowball." When the family removed from Calgary to Port Arthur, Ont., the cat was shipped to Port Arthur, where he ran away.

The MacLeods moved back to Calgary and soon after their return they found "Snowball" on the doorstep, somewhat frayed and with little resemblance to white snow, but still the veteran tomtcat of old. Port Arthur is 1,256 miles from Calgary by rail and probably several hundred additional miles were reeled off by "Snowball" in dodging dogs and other animals on the marathon hike.

## ANOTHER WALKOUT THREATENS

THE labor government of Britain barely gets through with one strike, that of the engineers and firemen of the railways, when another walkout threatens, that of the dockers union. The dockers demand an increase of wages from their employers, two shillings or 48 cents extra daily pay added to their minimum wage. Previous assemblies of delegates have almost invariably voted to strike.

The railway strike lasted about eight days and was settled satisfactorily, the labor government gaining much commendation for its prompt methods in effecting a settlement. It is to be hoped the dockers can also come to an amicable agreement and thus permit the government to devote itself to the solving of other questions in foreign policy, etc.

## A STEP AHEAD

A STEP ahead in the St. Lawrence waterway improvement is noted in Canada, where the Dominion government has accepted President Coolidge's invitation to discuss the waterway preliminary to signing the treaty between the two nations.

The completion of the plan means much to the whole Northwest. It will bring Brainerd within a little over 100 miles from Duluth, an ocean port, and with it will come the consequent enjoyment of reduced freight rates on many products. It will make the Staples-Duluth branch of the Northern Pacific railway company a feeder of such proportion that double-tracking, in our opinion, will be necessary to handle the quota of traffic received. More traffic means more men at the railway shops here, more train crews, more work for everybody.

## BUSINESS COMES FIRST

NEW YORK's east side, made famous in the moving picture delineation of "Humoresque," scored heavily again in a funny incident there Wednesday. It illustrated the fact that business comes first in all things, ahead even of the preservation of life.

A performance was in progress at a theatre when smoke drifted on the stage and into the audience. Instead of rushing for the exits, a majority of the 1,200 persons in the auditorium at first refused to leave the building, without assurance from the manager that the admission would be refunded. Finally the smoke got the best of the argument and the spectators reluctantly fled out. That, we suppose, is what the east side would term presence of mind of the highest kind.

## THE SOCIAL WHIRL

THE social whirl in Boston, as exemplified in one girl's experience, seems to have been a death whirl. The whirl of social life, dancing and cigarettes resulted in a nervous breakdown, bringing about the death of a prominent Boston girl.

It is a sad commentary on present society practices to see a cultured girl, daughter of a man high in business affairs, so wrought up by her social habits as to take a revolver and end it all with one shot. Boston, always featured as the hub in cultural affairs, needs some cleansing western air.

## SENATE PUTS UP A SMOKESCREEN OF TALK

(Continued from page 1)

crates in the senate today to force immediate resignation of Secretary of the Navy Denby.

Renewal of the bitter debate that has extended over two days came immediately after the senate reconvened.

Senator Trammell, Florida democrat, introduced an amendment to the Walsh resolution expressing the sense of congress that the president also demand Denby's resignation.

## SECRETARY DENBY INITIATED TRANSFER

Washington, Jan. 31.—Secretary Denby initiated the transfer of the Teapot Dome and Elk's Hills naval oil leases from the navy to the interior department, Rear Admiral J. L. Lattimer, judge advocate general of the navy, told the house naval affairs committee today.

"The executive order making the transfer issued by the late President Harding was signed at the request of Secretary Denby," Admiral Lattimer said.

"Mr. Denby told me that he initiated the transfer after thorough consideration in the department and consultation with experts.

This testimony was given by Lattimer when asked to explain the consideration which prompted the transfer of the naval oil reserves to the interior department.

## WALSH RESOLUTION ADOPTED BY SENATE

Washington, Jan. 31.—The senate this afternoon adopted the Walsh resolution directing President Coolidge to begin court action through special counsel to cancel the leases of naval oil reserves and to prosecute such other action, civil or criminal as will be warranted.

The senate defeated the Howell amendment without a record vote. Howell was the only member that voted for it.

These are the leases granted to Harry P. Sinclair and E. L. Doheny through former Secretary of the Interior Albert B. Fall and which the resolution charged were "executed under circumstances indicating fraud and corruption."

Action on the resolution followed two days of heated debate during which the democratic senators centered their fire on Secretary of the Navy Denby seeking to pass a resolution calling for his resignation.

The vote was reached today only after great pressure had been brought to bear to get the democrats to delay their demand for a vote on Denby until Walsh's resolution could be put through.

Senators Robinson and Trammell served notice that they would return to their fight on Denby immediately after the vote on Walsh's resolution was disposed of.

The Walsh resolution now goes to the house.

Under the terms the president is instructed to select counsel for prosecution of litigation for recovery of the leases which former Secretary of the Interior Fall is charged with having "corruptly and fraudulently" given to the Sinclair and Doheny oil interests.

It provides that the presidential nominations for counsel be confirmed by the senate before the litigation can be entered upon.

Former Attorney General Gregory and Silas H. Strawn have been named by the president as counsel.

The Walsh resolution states that the leases to Sinclair and Doheny of the naval oil reserves made by the United States government "by Albert B. Fall and Edwin Denby, secretaries of the interior and navy respectively," were executed under circumstances indicating "corruption and fraud."

It specifically charges that Fall and Denby had no authority to make the leases and circumstances were against the settled policy of the government.

## ASK TO SUBPOENA KU KLUX KLANSMEN

Washington, Jan. 31.—Luther Nickels and Scott Woodward, counsel for George Peck, republican contestant for the seat of Senator Earle B. Mayfield of Texas, today asked the senate committee investigating Mayfield's election to subpoena a number of present and former officials of the Atlanta Palace of the Ku Klux Klan to testify to alleged Klan contributions sent into Texas to aid in Mayfield's election.

## Titian Home Monument

The home at Piero di Cadore in which the great painter Titian was born has been proclaimed a national monument by the government, as has been the birthplace of the poet and dramatist Count Vittorio Alfieri at Asti. —Scientific American.

## Eleanor's Crosses.

Twelve memorial crosses erected in accordance with the will of Eleanor of Castile, wife of Edward I of England, to mark the resting places of her bier, on its way from Hornby in Lincolnshire, where she died (1290), to Westminster abbey, London, where she was buried. The twelve places, given in their order, from Hornby to Westminster Abbey, are as follows: Lincoln, Grantham, Stamford, Geddington, Northampton, Stony Stratford, Woburn, Dunstable, St. Albans, Waltham, West Cheap, Charing. Of these crosses, three only remained into modern times, viz., Geddington, Northampton, and Waltham.

## SAGE TEA BEAUTIFIES AND DARKENS HAIR

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage tea recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Adv.

## Simple Home Treatment for Sore Throat

Raw, Sore, Inflamed Throats Can Be Greatly Relieved By Use of this Vaporizing Salve.

Here is a simple yet effective method to treat a sore throat. Gargle with warm salt water three times daily. Also swallow slowly every few hours a teaspoonful of Vicks.

At night apply Vicks over the throat and upper chest, rubbing well in. Then spread on thickly and cover with a warm flannel cloth.

The body heat releases the ingredients—Menthol, Camphor, Eucalyptus, Juniper Tar, etc.—in the form of vapors and these vapors, inhaled all night long, go directly to the affected parts.

At the same time Vicks is absorbed thru and stimulates the skin like a liniment or plaster drawing out the soreness and pain.

Vicks is equally good for hoarseness, tonsillitis, head and chest colds, and for the croupy coughs of children.

You wouldn't wash clothes in dirty water—Why have them dry cleaned in dirty naphtha?

DeLaval Continuous Clarification keeps our cleansing fluid clean at all times.

De Laval Continuous Clarification is generally considered the greatest advance in dry cleaning methods made in the past decade. It keeps our cleansing fluid clean all the time and so immeasurably improves the quality of our work.

crisis in the senate today to force immediate resignation of Secretary of the Navy Denby.

Renewal of the bitter debate that has extended over two days came immediately after the senate reconvened.

Senator Trammell, Florida democrat, introduced an amendment to the Walsh resolution expressing the sense of congress that the president also demand Denby's resignation.

## SECRETARY DENBY INITIATED TRANSFER

Washington, Jan. 31.—Secretary Denby initiated the transfer of the Teapot Dome and Elk's Hills naval oil leases from the navy to the interior department, Rear Admiral J. L. Lattimer, judge advocate general of the navy, told the house naval affairs committee today.

"The executive order making the transfer issued by the late President Harding was signed at the request of Secretary Denby," Admiral Lattimer said.

"Mr. Denby told me that he initiated the transfer after thorough consideration in the department and consultation with experts."

This testimony was given by Lattimer when asked to explain the consideration which prompted the transfer of the naval oil reserves to the interior department.

## WALSH RESOLUTION ADOPTED BY SENATE

Washington, Jan. 31.—The senate this afternoon adopted the Walsh resolution directing President Coolidge to begin court action through special counsel to cancel the leases of naval oil reserves and to prosecute such other action, civil or criminal as will be warranted.

The senate defeated the Howell amendment without a record vote. Howell was the only member that voted for it.

These are the leases granted to Harry F. Sinclair and E. L. Doheny through former Secretary of the Interior Albert B. Fall and which the resolution charged were "executed under circumstances indicating fraud and corruption."

Action on the resolution followed two days of heated debate during which the democratic senators centered their fire on Secretary of the Navy Denby seeking to pass a resolution calling for his resignation.

The vote was reached today only after great pressure had been brought to bear to get the democrats to delay their demand for a vote on Denby until Walsh's resolution could be put through.

Senators Robinson and Trammell served notice that they would return to their fight on Denby immediately after the vote on Walsh's resolution was disposed of.

The Walsh resolution now goes to the house.

Under the terms the president is instructed to select counsel for prosecution of litigation for recovery of the leases which former Secretary of the Interior Fall is charged with having "corruptly and fraudulently" given to the Sinclair and Doheny oil interests.

It provides that the presidential nominations for counsel be confirmed by the senate before the litigation can be entered upon.

Former Attorney General Gregory and Silas H. Strawn have been named by the president as counsel.

The Walsh resolution states that the leases to Sinclair and Doheny of the naval oil reserves made by the United States government "by Albert B. Fall and Edwin Denby, secretaries of the interior and navy respectively," were executed under circumstances indicating "corruption and fraud."

It specifically charges that Fall and Denby had no authority to make the leases and circumstances were against the settled policy of the government.

## ASK TO SUBPOENA KU KLUX KLANSMEN

Washington, Jan. 31.—Luther Nickels and Scott Woodward, counsel for George Peck, republican contestant for the seat of Senator Earle B. Mayfield of Texas, today asked the senate committee investigating Mayfield's election to subpoena a number of present and former officials of the Atlanta Palace of the Ku Klux Klan to testify to alleged Klan contributions sent into Texas to aid in Mayfield's election.

Titian Home Monument.  
The home at Plover di Cadore in which the great painter Titian was born has been proclaimed a national monument by the government, as has been the birthplace of the poet and dramatist Count Vittorio Alfieri at Asti. —Scientific American.

## Eleanor's Crosses.

Twelve memorial crosses erected, in accordance with the will of Eleanor of Castile, wife of Edward I of England, to mark the resting places of her bier, on its way from Hornby in Lincolnshire, where she died (1290), to Westminster abbey, London, where she was buried. The twelve places, given in their order, from Hornby to Westminster abbey, are as follows: Lincoln, Grantham, Stamford, Geddington, Northampton, Stony Stratford, Woburn, Dunstable, St. Albans, Waltham, West Cheap, Charing. Of these crosses, three only remained in modern times, viz, Geddington, Northampton, and Waltham.

## SAGE TEA BEAUTIFIES AND DARKENS HAIR

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage tea recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Advt.

## Simple Home Treatment for Sore Throat

Raw, Sore, Inflamed Throats Can Be Greatly Relieved By Use of this Vaporizing Salve.

Here is a simple yet effective method to treat a sore throat. Gargle with warm salt water three times daily. Also swallow slowly every few hours a teaspoonful of Vicks.

At night apply Vicks over the throat and upper chest, rubbing well in. Then spread on thickly and cover with a warm flannel cloth.

The body heat releases the ingredients—Menthol, Camphor, Eucalyptus, Juniper Tar, etc.—in the form of vapors and these vapors, inhaled all night long, go directly to the affected parts.

At the same time Vicks is absorbed thru and stimulates the skin like a liniment or plaster drawing out the soreness and pain.

Vicks is equally good for hoarseness, tonsillitis, head and chest colds, and for the croupy coughs of children.

Another meeting of equal importance is that of the sixth district congressional committee which meets at the same office at 2 o'clock Monday afternoon, February 4. Mr. Schrader is chairman and the various county heads are:

Aitkin—Thomas Brusegaard, Hill City.

Beltrami—J. J. Hauge, Blackduck and W. F. Lauche, Baudette.

Benton—Damon I. Bouck, Rice.

Cass—P. M. Larson, Cass Lake.

Crow Wing—D. D. Schrader, Brainerd.

Hubbard—W. M. Taber, Park Rapids.

Morrison—Charles Jensen, Little Falls.

Sherburne—L. A. Dare, Elk River.

Stearns—Allan R. Atwood, St. Cloud.

Todd—R. A. Lee, Long Prairie.

Wadena—M. E. Isherwood, Sebeka.

### YOUNGEST GIRL GRADUATE

Honor in Northfield Falls to Miss Mary Benjamin, Brainerd Teacher

The following, clipped from the "Northfield Independent" will be of interest to many Dispatch readers since Miss Mary Benjamin is now instructor of mathematics in the Brainerd high school:

Has Northfield the distinction of having the youngest girl graduate in the United States?

The Independent recently carried "filler" stating that Dorothy Stevens of Washington, D. C., was the youngest known girl graduate in the country, having received her bachelor's degree at 19 years of age. This item brought out the fact that Northfield has produced one younger girl graduate—Miss Mary Benjamin, daughter of Mr. and Mrs. J. T. Benjamin who finished her college course in mid-year at the age of 18½ year and received her diploma at commencement in June, about two months before her 19th birthday.

In addition to finishing college at this early age, Miss Benjamin has the distinction of making the course in three and one-half years, at the same time as she partly worked her way through school, paying entire tuition cost from her own earnings as assistant in the Carleton library and as reporter for The Independent. She ranked high scholastically during her entire college course.

Before reaching her 21st birthday, Miss Benjamin had taught two years in high school.

### METHODIST CHURCH NIGHT

Supper and Service to be Held This Evening, Supper Beginning at 6:30 O'clock

The regular church night supper and service will be held at the Methodist church this Thursday night. The supper will begin at 6:30 o'clock and will consist of pork roast, fish, vegetables and dessert. The songs will be selected from the rousing missionary hymns. The study is Southeastern Asia including the Philippine Islands, Malaysia, and the Dutch East Indies. The meeting will close promptly at eight o'clock so as to give place to other meetings.

## REGIONAL PATROL LEADER CONFERENCE

To be Held in Assembly Hall of the University Farm School at St. Anthony Park

SATURDAY, FEB. 2, 10 A. M. 4 P. M.

Group of Boys Going From Brainerd to be Entertained by Brother Scouts

Nine patrol leaders from Boy Scout troops of Brainerd, will leave Friday afternoon for the cities to attend the regional patrol leader's conference, to be held in the assembly hall of the University farm school, St. Anthony Park, on Saturday, from 10 a. m. to 4 p. m.

The boys going from this city include John Ellison, S. C., Hans Mock, S. C., William Johnstone, S. C., Julius Peterson, T. F., Earl Nelson, S. C., Eugene Stimble, Jr., P. S., John Hohman, S. C., Merle Storn, S. C., and Hallett Clarkson. They will be entertained by brother scouts in the cities, and will visit a Minneapolis troop on Friday evening. This is an opportunity long sought by the local boys. They expect to have a grand time, receive much valuable instruction and return more imbued with the scout spirit than ever.

The object of the conference will be to promote scouting efficiency within the troops. Delegates are limited to two from each of the Twin City troops, with such representation as the outside councils may be able to send. It is expected that there will be between three and four hundred patrol leaders present. The program is as follows:

Address of welcome, L. D. Coffman, president of the University.

Preliminary organization, flag ceremony, songs, invocation.

Topics for the morning discussion:

1. Why is a patrol leader?
2. Patrol program and spirit.
3. Putting advance in advance.

These topics will first be discussed by an assigned speaker, and then followed by an open forum.

The meeting will adjourn at noon for a trip through the University farm stables. Luncheon will be served at the farm school cafeteria at one o'clock.

During the luncheon there will be plenty of scout yells, songs, special stunts, and an inspirational talk by Dean Coffey of the agricultural college.

The conference program will be resumed at 2 o'clock with the following subjects discussed:

1. Keeping the "Out" in scout.
2. Getting the troop to camp.
3. Boys Life—its place in scouting.
4. Games.

A resolutions committee will be appointed to bring in for action of the entire group, certain resolutions and objectives to be reported back to each troop by the delegates who attended the conference.

Scout Executives George S. Wyckoff, of Minneapolis, and Frank R. Niebel of St. Paul, will have charge of the conference, which guarantees the success of the occasion, making it one of the most significant from the viewpoint of scouting, that has ever been held in the Northwest.

### MRS. GERTRUDE SMITH DIED

Widow of Late Tom Smith Passed Away at White Bear. Funeral in Brainerd

Word was received today announcing the death of Mrs. Gertrude Smith, widow of the late Tom Smith, which occurred Wednesday evening at White Bear. The remains will arrive on the late train tonight for burial in this city. Funeral arrangements have not been made, pending the arrival of relatives, but will be announced in Friday's Dispatch.

### Riverside Parent-Teachers

The Parent-Teachers Association of the Riverside school will meet Friday, Feb. 1st at 7:30 p. m. A very good program has been arranged. Everyone is cordially invited to attend these meetings.

## JOINT MEETING, ROTARY, LIONS

Ladies Night, by Joint Action of Clubs, is Set for Wednesday, February 6

MISS NIELSON WILL NOT COME

Instead, a Brand New Program Giving Play to Local Talent Has Been Evolved

Because of a change in schedule, it will be impossible to have Miss Hortens Nielson, actress and impersonator, appear in Brainerd before the high school and a joint meeting of the Rotary and Lions clubs on Wednesday, February 6th, as was originally planned.

It was hoped that Miss Nielson, who will be heard in recital in Duluth on Tuesday, could arrange to visit Brainerd on the following day, but since this will be impossible, the two luncheon clubs will plan a new program and hold their joint meeting as originally scheduled on Wednesday evening, at the Ransford hotel, beginning promptly at seven o'clock.

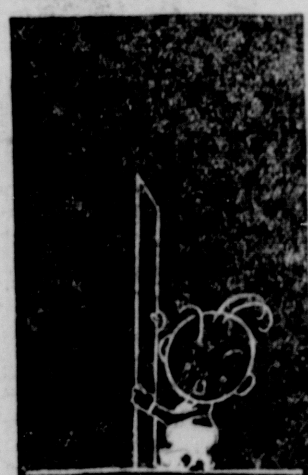

The Rotary and Lions, being clubs that are very similar in purpose and organized along practically the same lines, have a get-together meeting once each year, and next Wednesday's meeting will be designated for this annual love-feast.

An innovation will be introduced at this meeting, in that the ladies will be entertained, making it a ladies night as well. This is the first time that the Lionettes and Rotary Anns have been invited to a joint meeting, and extensive plans are being made to provide an especially interesting meeting for their benefit.

The program committees of both clubs are working together on the entertainment, and promise to stage the snappiest meeting that has ever been held by these organizations. There will be special music, much singing by both clubs, a good speaker furnished and several surprises introduced.

The Rotary club, which holds its regular meeting on Tuesday noon, is postponing that meeting, and instead will make the joint session on Wednesday evening serve the purpose of its weekly luncheon. The Lions regular meeting falls on Wednesday, so that there will be necessity for a change in the schedule of this club.

## BEMIDJI BEAUTY IN CITY TODAY

Miss Martha Erwig, "Miss Bemidji Daily Pioneer" On Way to Twin City Auto Show

MOTHER WAS CHAPERONE

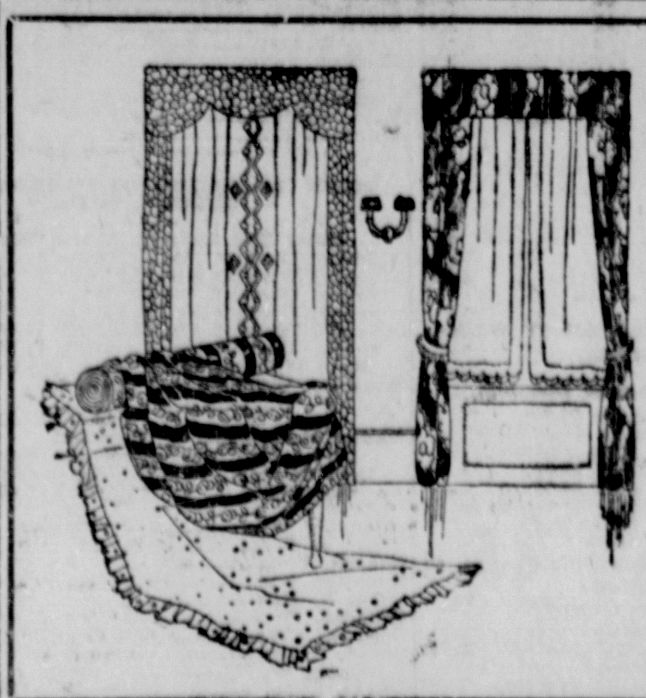

Girl is 17, a Junior in Bemidji High School, Polling Large Vote in Beauty Contest

Miss Martha Erwig, beauty contest winner of Bemidji who will represent that city and newspaper as "Miss Bemidji Pioneer" at the Twin City Automotive Exposition, passed through Brainerd today with her chaperone, her mother Mrs. O. E. Erwig.

Miss Erwig is a charming brunette, aged 17, a junior in the Bemidji high school. In the contest she ran well over 200,000 ahead of her nearest competitor. Bemidji counted votes by the hundred, a different system than that of the Dispatch where each ballot counted just one vote.

Miss Erwig hoped to meet Miss Irene Turcotte, who is "Miss Brainerd Dispatch" and she caught a glimpse of the latter as she motored past the Dispatch office. Miss Erwig anticipates much enjoyment at the show and has looked forward to the coming week there with the keenest interest.

# How We Spend Your Money in building Studebaker cars

## Why people buy 150,000 yearly

IT is true that we spend lavishly on Studebaker cars. But it's all to your advantage.

It is by that spending that we give you the greatest value in the fine-car field. We offer prices no one matches on any comparable cars.

That lavish spending led people last year to pay \$200,000,000 for Studebaker cars. And that volume brings our prices down to where they are.

### \$50,000,000 in plants

Studebaker assets are \$90,000,000. In modern plants and equipment we have \$50,000,000. Seventy per cent of that amount was spent in the past seven years. So it represents the last word in equipment.

\$8,000,000 in drop forge plants, so every vital part is made to Studebaker standards.

\$10,000,000 in body plants, so Studebaker ideals may be shown in every body.

All that is staked in a permanent way on satisfying fine-car buyers better than our rivals.

### What extras cost

Lack of vibration is a famous Studebaker feature. We get that by machining crank shafts as they were in Liberty Airplane Motors. That extra cost is over \$600,000 yearly.

Matchless endurance is another famous feature. One Studebaker Six, still in active use, has run 475,000 miles since 1918. We get that through costly steels. On some we pay 15% bonus to makers to get formulas exact.

Beauty of finish is another supremacy. But that finish requires many operations, including 15 coats of paint and varnish.

Our real leather cushions cost \$25 per car over imitation leather.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,600 in

America. The Light-Six more than any competitive car within \$1,000 of its price.

In closed cars we offer wondrous luxury. The lining is Chase Mohair, made from the fine fleece of Angora goats. Velour would cost about one-third that, saving up to \$100 a car.

Note those bumpers, that steel trunk, those extra disc wheels with cord tires on some models. Note that extra courtesy light. Think what they would cost if you bought them.

### The cost of care

The unvarying standards in Studebaker cars are fixed by a department

### Don't Buy Blindly

Studebaker is today the leader in the fine-car field.

It has made this concern the largest builder of quality cars in the world.

You can find nothing in cars at \$1,000 or over to compare with Studebaker values.

Studebaker sales have almost trebled in the past three years. The growing demand is the sensation of Motordom.

For 72 years the name Studebaker has stood for quality and class. But never so much as today.

Then don't buy a car at \$1,000 or over without learning what we offer.

of Methods and Standards. It is enormously expensive.

Our constant improvements are due to ceaseless research. 125 experts devote their time to the study of betterments. They make 500,000 tests per year.

That reliability is due to 12,000 inspections of the material and workmanship in each Studebaker car before it leaves the factory. This requires 1,000 inspectors.

### Being generous with men

We pay maximum wages—at least as much as anyone else will pay.

### Not extravagance

Do such things seem extravagant? They are not. All those extra dollars save more dollars for our buyers.

They result in the cars you see, in the prices and values we offer. Nothing else in the field can compare.

Those values have resulted in a demand for 150,000 cars per year. That volume cuts our costs in two, as compared with limited production.

The cause of over-prices—under-values—is not lavish expenditure.

### It is

Limited production, Heavy overhead, Out-of-date machinery, Antiquated methods, Non-economical plants, Transient labor, Discontented workers.

We've eliminated those things. We've done it at what seems to you a heavy cost per car. But each of those extra dollars saves \$5, we believe. Note what values and what prices have resulted. Note the amazing demand—the overwhelming demand—it has brought for Studebaker cars.

### YOUNGEST GIRL GRADUATE

Honor in Northfield Falls to Miss Mary Benjamin, Brainerd Teacher

The following, clipped from the "Northfield Independent" will be of interest to many Dispatch readers since Miss Mary Benjamin is now instructor of mathematics in the Brainerd high school:

Has Northfield the distinction of having the youngest girl graduate in the United States?

The Independent recently carried a "filler" stating that Dorothy Stevens of Washington, D. C., was the youngest known girl graduate in the country, having received her bachelor's degree at 19 years of age. This item brought out the fact that Northfield has produced one younger girl graduate—Miss Mary Benjamin, daughter of Mr. and Mrs. J. T. Benjamin who finished her college course in mid-year at the age of 18½ year and received her diploma at commencement in June, about two months before her 19th birthday.

In addition to finishing college at this early age, Miss Benjamin has the distinction of making the course in three and one-half years, at the same time as she partly worked her way through school, paying entire the tuition cost from her own earnings as assistant in the Carleton library and as reporter for The Independent. She ranked high school astically during her entire college course.

Before reaching her 21st birthday Miss Benjamin had taught two year in high school.

### METHODIST CHURCH NIGHT

Supper and Service to be Held This Evening, Supper Beginning at 6:30 O'clock

The regular church night supper and service will be held at the Methodist church this Thursday night. The supper will begin at 6:30 o'clock and will consist of pork roast, fish, vegetables and dessert. The songs will be selected from the rousing missionary hymns. The study is Southeastern Asia including the Philippine Islands, Malaysia, and the Dutch East Indies. The meeting will close promptly at eight o'clock so as to give place to other meetings.

## REGIONAL PATROL LEADER CONFERENCE

To be Held in Assembly Hall of the University Farm School at St. Anthony Park

**SATURDAY, FEB. 2, 10 A. M. 4 P. M.**  
Group of Boys Going From Brainerd to be Entertained by Brother Scouts

Nine patrol leaders from Boy Scout troops of Brainerd, will leave Friday afternoon for the cities to attend the regional patrol leader's conference, to be held in the assembly hall of the University farm school, St. Anthony Park, on Saturday, from 10 a. m. to 4 p. m.

The boys going from this city include John Ellison, S. C., Hans Mock, S. C., William Johnstone, S. C., Julius Peterson, T. F., Earl Nelson, S. C., Eugene Stimble, Jr., F. L., John Hohman, S. C., Merle Storma, S. C., and Hallett Clarkson. They will be entertained by brother scouts in the cities, and will visit a Minneapolis troop on Friday evening.

This is an opportunity long sought by the local boys. They expect to have a grand time, receive much valuable instruction and return more imbued with the scout spirit than ever.

The object of the conference will be to promote scouting efficiency within the troops. Delegates are limited to two from each of the Twin City troops, with such representation as the outside councils may be able to send. It is expected that there will be between three and four hundred patrol leaders present. The program is as follows:

Address of welcome, L. D. Coffman, president of the University.

Preliminary organization, flag ceremony, songs, invocation.

Topics for the morning discussion:

1. Why is a patrol leader?
2. Patrol program and spirit.
3. Putting advance in advancement.

These topics will first be discussed by an assigned speaker, and then followed by an open forum.

The meeting will adjourn at noon for a trip through the University farm stables. Luncheon will be served at the farm school cafeteria at one o'clock.

During the luncheon there will be plenty of scout yells, songs, special stunts, and an inspirational talk by Dean Coffey of the agricultural college.

The conference program will be resumed at 2 o'clock with the following subjects discussed:

1. Keeping the "Out" in scout.
2. Getting the troop to camp.
3. Boys Life—its place in scouting.
4. Games.

A resolutions committee will be appointed to bring in for action of the entire group, certain resolutions and objectives to be reported back to each troop by the delegates who attended the conference.

Scout Executives George S. Wyckoff, of Minneapolis, and Frank R. Nebel of St. Paul, will have charge of the conference, which guarantees the success of the occasion, making it one of the most significant from the viewpoint of scouting, that has ever been held in the Northwest.

### MRS. GERTRUDE SMITH DIED

Widow of Late Tom Smith Passed Away at White Bear. Funeral in Brainerd

Word was received today announcing the death of Mrs. Gertrude Smith widow of the late Tom Smith, which occurred Wednesday evening at White Bear. The remains will arrive on the late train tonight for burial in this city. Funeral arrangements have not been made, pending the arrival of relatives, but will be announced in Friday's Dispatch.

### Riverside Parent-Teachers

The Parent-Teachers Association of the Riverside school will meet Friday, Feb. 1st at 7:30 p. m. A very good program has been arranged. Everyone is cordially invited to attend these meetings.

## JOINT MEETING, ROTARY, LIONS

Ladies Night, by Joint Action of Clubs, is Set for Wednesday, February 6

**MISS NIELSON WILL NOT COME**  
Instead, a Brand New Program Giving Play to Local Talent Has Been Evolved

Because of a change in schedule, it will be impossible to have Miss Hortens Nielson, actress and impersonator, appear in Brainerd before the high school and a joint meeting of the Rotary and Lions clubs on Wednesday, February 6th, as was originally planned.

It was hoped that Miss Nielson, who will be heard in recital in Duluth on Tuesday, could arrange to visit Brainerd on the following day, but since this will be impossible, the two luncheon clubs will plan a new program and hold their joint meeting as originally scheduled on Wednesday evening, at the Ransford hotel, beginning promptly at seven o'clock.

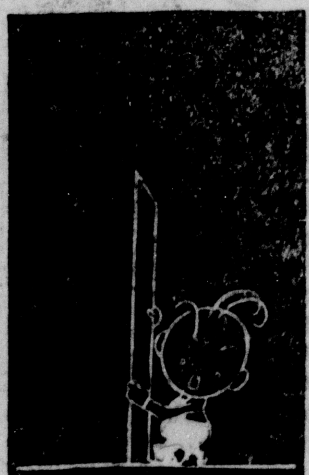

The Rotary and Lions, being clubs that are very similar in purpose and organized along practically the same lines, have a get-together meeting once each year, and next Wednesday's meeting will be designated for this annual love-fe.

An innovation will be introduced at this meeting, in that the ladies will be entertained, making it a ladies night as well. This is the first time that the Lionettes and Rotary Anns have been invited to a joint meeting, and extensive plans are being made to provide an especially interesting meeting for their benefit.

The program committees of both clubs are working together on the entertainment, and promise to stage the snappiest meeting that has ever been held by these organizations. There will be special music, much singing by both clubs, a good speaker furnished and several surprises introduced.

The Rotary club, which holds its regular meeting on Tuesday noon, is postponing that meeting, and instead will make the joint session on Wednesday evening serve the purpose of its weekly luncheon. The Lions regular meeting falls on Wednesday, so that there will be necessity for a change in the schedule of this club.

## BEMIDJI BEAUTY IN CITY TODAY

Miss Martha Erwig, "Miss Bemidji Daily Pioneer" On Way to Twin City Auto Show

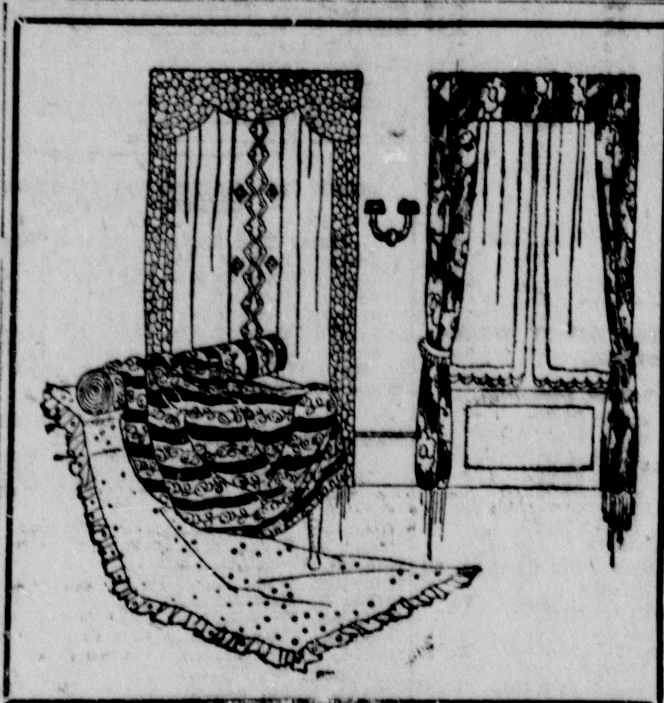

**MOTHER WAS CHAPERONE**  
Girl is 17, a Junior in Bemidji High School, Polling Large Vote in Beauty Contest

Miss Martha Erwig, beauty contest winner of Bemidji who will represent that city and newspaper as "Miss Bemidji Pioneer" at the Twin City Automotive Exposition, passed through Brainerd today with her chaperone, her mother Mrs. O. E. Erwig.

Miss Erwig is a charming brunette, aged 17, a junior in the Bemidji high school. In the contest she ran well over 200,000 ahead of her nearest competitor. Bemidji counted votes by the hundred, a different system than that of the Dispatch, where each ballot counted just one vote.

Miss Erwig hoped to meet Miss Irene Turcotte, who is "Miss Brainerd Dispatch" and she caught a glimpse of the latter as she motored past the Dispatch office. Miss Erwig anticipates much enjoyment at the show and has looked forward to the coming week there with the keenest interest.

# How We Spend Your Money in building Studebaker cars

## Why people buy 150,000 yearly

IT is true that we spend lavishly on Studebaker cars. But it's all to your advantage.

It is by that spending that we give you the greatest value in the fine-car field. We offer prices no one matches on any comparable cars.

That lavish spending led people last year to pay \$200,000,000 for Studebaker cars. And that volume brings our prices down to where they are.

### \$50,000,000 in plants

Studebaker assets are \$90,000,000. In modern plants and equipment we have \$50,000,000. Seventy per cent of that amount was spent in the past seven years. So it represents the last word in equipment.

\$8,000,000 in drop forge plants, so every vital part is made to Studebaker standards.

\$10,000,000 in body plants, so Studebaker ideals may be shown in every body.

All that is staked in a permanent way on satisfying fine-car buyers better than our rivals.

### What extras cost

Lack of vibration is a famous Studebaker feature. We get that by machining crank shafts as they were in Liberty Airplane Motors. That extra cost is over \$600,000 yearly.

Matchless endurance is another famous feature. One Studebaker Six, still in active use, has run 475,000 miles since 1918. We get that through costly steels. On some we pay 15% bonus to makers to get formulas exact.

Beauty of finish is another supremacy. But that finish requires many operations, including 15 coats of paint and varnish.

Our real leather cushions cost \$25 per car over imitation leather.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,600 in

America. The Light-Six more than any competitive car within \$1,000 of its price.

In closed cars we offer wondrous luxury. The lining is Chase Mohair, made from the fine fleece of Angora goats. Velour would cost about one-third that, saving up to \$100 a car.

Note those bumpers, that steel trunk, those extra disc wheels with cord tires on some models. Note that extra courtesy light. Think what they would cost if you bought them.

### The cost of care

The unvarying standards in Studebaker cars are fixed by a department

## Don't Buy Blindly

Studebaker is today the leader in the fine-car field.

It has made this concern the largest builder of quality cars in the world.

You can find nothing in cars at \$1,000 or over to compare with Studebaker values. Studebaker sales have almost trebled in the past three years. The growing demand is the sensation of Motordom.

For 72 years the name Studebaker has stood for quality and class. But never so much as today.

Then don't buy a car at \$1,000 or over without learning what we offer.

of Methods and Standards. It is enormously expensive.

Our constant improvements are due to ceaseless research. 125 experts devote their time to the study of betterments. They make 500,000 tests per year.

That reliability is due to 12,000 inspections of the material and workmanship in each Studebaker car before it leaves the factory. This requires 1,000 inspectors.

### Being generous with men

We pay maximum wages—at least as much as anyone else will pay.

### Not extravagance

Do such things seem extravagant? They are not. All those extra dollars save more dollars for our buyers.

They result in the cars you see, in the prices and values we offer. Nothing else in the field can compare.

Those values have resulted in a demand for 150,000 cars per year. That volume cuts our costs in two, as compared with limited production.

The cause of over-prices—under-values—is not lavish expenditure.

It is

Limited production, Heavy overhead, Out-of-date machinery, Antiquated methods, Non-economical plants, Transient labor, Discontented workers.

We've eliminated those things. We've done it at what seems to you a heavy cost per car. But each of those extra dollars saves \$5, we believe. Note what values and what prices have resulted. Note the amazing demand—the overwhelming demand—it has brought for Studebaker cars.
